If, during testing performed within this 72-hour period the bird(s) are diagnosed with a pre-existing condition that is non-treatable and seriously affects their health or well-being as determined by the examining Avian Veterinarian, then upon verification of this condition to SELLER and upon timely return of the bird(s) by BUYER, SELLER agrees to replace the bird or give a full refund on the purchase price of the bird.

(B). SELLER does not consider a mild growth of gram-negative bacteria to be abnormal post shipping, but recognizes this as normal and expected due to stress.

(C). In the event that the purchased bird(s) should die within the 72 hour period, BUYER must immediately refrigerate (not freeze) the bird(s) body in a sealed plastic bag and deliver the body within 12-24 hours to a qualified lab or avian veterinarian for necropsy to determine the cause of death.
